Sustainability = Stability.

My job is to save the planet.

If you're a hammer, everything looks like a nail.

We must redefine human aspiration, individually and collectively.

What you do, who you are, leadership, culture, application, inspiration, smarter participation, joy, thriving, peak moments, happiness, contentment.

Find people's strengths, one mission, one mind.

The thread that binds us together.

We won't be cute, we won't be patronized, and we won't be denied our future.

Cool Blue!

More than just a job!

The angry kid video.

The environmental problem.

Creating meaningful change.

Appreciative inquiry.

Business is the institution that can drive big change.

Happiness.

Impact:

$I = P \times A \times T$

Env. Impact People Affluence Technology

The affluence problem.

More than just a job.

Electrodes

We are confusing the ends with the means.
