Appreciative Inquiry
The Philosophy

Appreciative Inquiry is an articulated theory that rationalizes and reinforces the habit of mind that moves through the world in a generative frame seeking and finding images of the possible rather than scenes of disaster and despair.

*Jane Magruder Watkins*

If you want to build a ship, then don’t drum up men to gather wood, give orders, and divide the work. Rather, teach them to yearn for the far and endless sea.

*Antoine de Saint-Exupery*

All the greatest and most important problems of life are fundamentally insoluble... They can never be solved, but only outgrown. This “outgrowing” proves on further investigation to require a new level of consciousness. Some higher or wider interest appeared on the horizon and through the broadening of outlook the insoluble problem lost its urgency. It was not solved logically in its own terms but faded when confronted with a new and stronger life urge.

*Carl Jung*
